Final Environmental Impact Statement for Implementation of a Solid Waste Management Program, Fort Lewis, Washington

AGENCY: Department of the Army, DoD.

ACTION: Notice of Availability.

SUMMARY: This Final Environmental Impact Statement (FEIS) was prepared to evaluate alternatives to, and environmental impacts of, the methods for handling, treating and disposing of solid waste. The proposed solid waste management program is designed to process all the solid waste generated at Fort Lewis and McChord Air Force Base in a manner that meets all applicable regulatory requirements. Four

alternatives are considered for managing solid waste.

FOR FURTHER INFORMATION CONTACT: Questions, comments, or requests for copies of the FEIS should be addressed to Mr. Randall W. Hanna at (206) 967–5646; or by writing to: Commander, Headquarters I Corps and Fort Lewis, ATTN: AFZHDEQ (Mr. Randall Hanna), Fort Lewis, Washington 98433–5000.

DATES: Comments on the FEIS should be received by June 12, 1995 to ensure due consideration.

SUPPLEMENTARY INFORMATION: Alternatives considered: Alternative 1—recycle 35% of the annual municipal solid waste (MSW); complete construction of a heat-recovery incinerator; and construct and dispose of incinerator ash in an on-site ash cell. Alternative 2 (Preferred Alternative)—recycle 50% of the annual MSW; complete construction of a heat-recovery incinerator; and dispose of the incinerator ash off site. Alternative 3—Demolish and salvage incinerator; increase recycling of annual MSW to 35% or greater; dispose of all non-recycled MSW in on-site landfill. Alternative 4 (No Action)—demolish and salvage incinerator; recycle 25% of the annual MSW; dispose of all non-recycled MSW in on-site landfill cells. Steam and hot water produced as a byproduct of the incinerator would be utilized to augment the existing Fort Lewis heating system.

The incinerator would enable Fort Lewis to retire two existing boiler plants that supply high temperature hot water heat, thereby conserving fossil fuel and heating costs. Also, Fort Lewis would retire one incinerator used to destroy classified documents and procedural waste from Madigan Army Medical Center. Operation of the incinerator would extend the life of the Fort Lewis landfill by about 25 year.

Army Federal Register Liaison Officer.
